CLUTCH

Carter's Clutch & Brake stock a comprehensive range of **clutch kits**, **clutch plates** and **release bearings** for just about every vehicle in existence. **Spigot bearings** and **alignment tools** are also available.

We only source high quality parts from leading manufacturers and suppliers. All parts supplied meet Australian Standards and are covered by manufacturers warranty.

BRAKE

We supply **brake pads**, **rotors**, **shoes and drums** for all types of vehicles in every-day, heavy duty, off-road, towing or extreme driving conditions. Our range of brake parts will be expertly matched to meet your vehicle braking needs.

Brake pipes are made on site and we carry a large range of **tube nuts** and **adaptors**. We also supply new **brake calipers** or we can recondition your original parts in-store.

BRAKE HOSES & CABLES

Our technicians will custom build your ADR approved **rubber or braided brake hoses** to any specification using high quality materials and superior fittings. We build and repair **brake, clutch, throttle and control cables** for all types of vehicles.

HYDRAULICS

All stores carry a wide range of brake and clutch hydraulics, including **brake master cylinders**, **wheel cylinders**, **clutch master cylinders** and **slave cylinders**. We have **stainless steel sleeving** of hard-to-source cylinders to keep your vehicle on the road.

SUSPENSION

Sachs and Monroe brand **shock absorbers** and **bonnet struts** are available at competitive prices. We can also source **ball joints**, **tie rod ends** and **suspension bushes** for your undercar applications.

BONDING & RELINING

Our **bonding and relining service** at Adamstown provides for all industrial bonding applications including brake shoes, bands and specialty pads for all types of heavy vehicles and machinery.

We only use high quality heavy duty bonding agents that will produce the best possible result giving your brake components an extended life.
